SERVING THOSE WHO SERVE

Our goal is to help educational institutions locate the best possible products and facilitate a service model that meets their needs (including ones already in place) to deliver the most streamlined procurement process and highest level of employee satisfaction.

We develop complete workwear solutions for the following areas, among others:

SECURITY

**GROUNDS KEEPING/
LANDSCAPING**

LABORATORY/SCIENCES

**MAINTENANCE/
JANITORIAL**

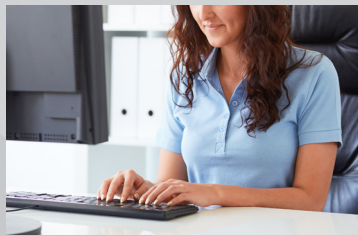

**ENGINEERING/
FACILITIES MAINTENANCE**

BUS/TRANSIT

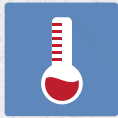

**FOOD SERVICE/
CAFETERIA**

ADMINISTRATION

INNOVATIVE PRODUCTS BUILT FOR THE JOB

Devoted to apparel innovation, we are constantly improving our workwear in areas such as:

TEMPERATURE REGULATION

Our workwear will help maintain body temperature at a level that maximizes a worker's performance while protecting them.

MOBILITY

From bending to squatting to reaching, we take a scientific approach to creating workwear that works with you, not against you.

EQUIPMENT MANAGEMENT

Our functional, professional garments incorporate storage needs for a variety of profession-specific tools of the trade.

SAFETY

Meeting all relevant current standards, our apparel provides workers with peace of mind and the level of protection they require to focus on their jobs.

SOIL MANAGEMENT

We create fabrics and finishes that help keep uniforms looking fresh and new, wear after wear.

BRANDS WE OFFER

As the supplier of the most recognized brands in uniform apparel, VF Workwear creates head-to-toe workwear solutions for the education market through customized product selections.

RED KAP®

Comfortable, durable workwear worn by 16 million hard-working Americans and trusted by workers since 1923.

BULWARK® FR

The world's leading FR brand offering you the most intuitively designed FR products and the industry's premier FR education programs. We are your total FR solution.

BULWARK® CP

The next step in the evolution of lab PPE. We offer you breakthrough single and multi-hazard safety wear built with flame-resistant (FR) properties and/or chemical-splash protection (CP) to help provide protection that fits well and is easy to wear.

HORACE SMALL®

Continually optimized and fine-tuned uniforms designed for law enforcement, corrections, parks and recreation, fire, and EMS professionals.

Red Kap® Work Shirt with MIMIX™

The specially-placed flex panel provides maximum mobility and is made with a lightweight mesh fabric that is extra durable and breathable too.

TOUCHTEX™ TECHNOLOGY with superior color retention, soil release and wickability.

Industrial-friendly **RIPSTOP FABRIC** is **75% STRONGER** than other poplin workwear fabrics.

iQ SERIES® COMFORT PLUS KNIT HENLEY

The iQ Series® Comfort Plus Knit Henleys are the next-generation of FR workwear. The lightweight, moisture-wicking material is the first of its kind—available exclusively with Westex G2™ fabrics by Milliken®. Underarm gussets allow you to stretch and reach, without your shirt riding up, while ribbing in the cuffs keeps your sleeves securely in place. The 4-button placket and contrast stitching give this Henley a contemporary and stylish look, with the FR protection you expect from Bulwark—with CAT2 and 2112 labels easily visible on the sleeve.

ICON LEGEND

Use the icon legends on these pages as a guide to help quickly identify the icons (seen throughout the catalog), and the descriptions of the unique garment features and benefits they represent.

WOMEN'S COMPANION PIECE AVAILABLE
Garments featuring this icon either are the female garment, or it indicates that the garment shown has a female companion piece.

TOUCHTEX™ TECHNOLOGY
Superior color retention, soil release and wickability.

TOUCHTEX PRO™
Same features as Touchtex™ but with an even softer hand. Available on bottoms only.

YARN DYED STRIPES
Yarns are dyed then woven into a striped configuration.

DURABLE PRESS
Minimum pressing or ironing required. Fabric contains a wrinkle-resistant finish.

NO BUTTONS
This garment has no buttons that will fall off or catch.

UV BUTTONS
Non-yellowing buttons for long-lasting whiteness through industrial laundry processing.

HYDROPHILIC MOISTURE MANAGEMENT SYSTEM
Technical term meaning moisture wicking. Wicks perspiration away from the skin and spreads it over the fabric face. It then quickly evaporates, allowing the wearer to stay cool, dry and comfortable.

ROKAP
A Red Kap® term for our no-roll waistband. This garment has enhanced engineering to withstand industrial laundry stress and abrasion. The waistband has a mesh inner lining inside to reduce breakdown in fabric fibers, giving the pant a permanent crease even after industrial laundering.

WORK MOTION® FABRIC
Created exclusively for Red Kap® and provides permanent comfort during wear with memory stretch yarns for added flexibility.

STRETCH CANVAS
The industry's first Industrial Stretch Canvas is extra tough but wears comfortably all day long.

SIDE-VENTED STRAIGHT HEM
Versatile straight hem offers a clean professional look whether tucked in or worn out.

ZEROSKRATCH™ APPAREL
Paint jobs and surfaces stay scratch free thanks to strategically-designed garment features that keep buttons and snaps under wraps.

RIPSTOP FABRIC
Lightweight yet extra durable ripstop fabric keeps rips and repairs to a minimum.

OILBLOK TECHNOLOGY
Repels oil and oil-based fluids keeping garments looking new, longer – and it's only available from Red Kap®.

DURABLE WATER REPELLENT (DWR) FINISH
Repels water and water-based liquids while decreasing dry time nearly 30% compared to other non-treated twill workwear fabric.

TRUBLACK
Our 65% Polyester / 35% Cotton Black fabric resists fading wash after wash.

CLASSIC FIT
This fit features a traditional rise that sits at the natural waist. Slim through the seat and thigh with a slimmer leg opening that will fit over work boots.

RELAXED FIT
Our relaxed fit jeans feature a traditional rise that sits at the natural waist. Relaxed seat and thigh offer more room for mobility, and the slightly tapered leg fits over work boots.

LOOSE FIT
This fit features an updated rise that sits slightly below the waist. It is cut through the seat and thigh to offer maximum comfort and ease of movement. The straight leg fits over work boots.

STRAIGHT FIT
Our straight fit features an updated rise that sits slightly below the waist. It is slim through the seat and thigh with a leg opening that fits over work boots.

MODERN FIT
Modern fit with updated rise sits slightly below the natural waist. It is slim through the seat and thigh with a slightly tapered leg opening that fits over work boots.

HI-VISIBILITY TYPE 0 CLASS 1 - OFF-ROAD
Intended for use in environments where there are struck-by hazards from moving vehicles, equipment and machinery not operating on public access rights of way or temporary traffic control zones.

HI-VISIBILITY TYPE R CLASS 2 - ROADWAY
Intended for use by personnel exposed to vehicular traffic from public access rights of way or roadway temporary traffic control zones. Class 2 garments require the use of greater amounts of high-visibility materials which help distinguish between a human and an inanimate object.

HI-VISIBILITY TYPE R CLASS 3 - ROADWAY
Intended for use by personnel exposed to vehicular traffic from public access rights of way or roadway temporary traffic control zones. Class 3 garments mandate an even higher standard of visibility for workers in moving, complex backgrounds.

HI-VISIBILITY SUPPLEMENTAL CLASS E
Pants, bib overalls, shorts and gaiters meeting minimum area requirements for background material and retro-reflective trim. Class E apparel, however, cannot be worn alone to provide adequate visibility of workers. When Class E items are worn with Performance Class 2 or 3 apparel, the overall classification of the ensemble is Performance Class 3.

UPF 40 RATING
Ultraviolet Protection Factor - A rating designed for fabric and clothing that specifically measures the level of sun protection. UPF measures both UVA and UVB rays.

ICON LEGEND

ARC RATINGS

CATEGORY 1 PROTECTION

Arc-rated FR long-sleeve shirt and FR pants or FR coverall with a required minimum Arc Rating of 4 cal/cm².

CATEGORY 2 PROTECTION

Arc-rated FR long-sleeve shirt and FR pants or FR coverall with a required minimum Arc Rating of 8 cal/cm².

CATEGORY 3 PROTECTION

Arc-rated FR long-sleeve shirt and pants or FR coverall, and arc flash suit selected so that the system arc rating meets a required minimum Arc Rating of 25 cal/cm².

CATEGORY 4 PROTECTION

Arc-rated FR long-sleeve shirt and pants or FR coverall, and arc flash suit selected so that the system arc rating meets a required minimum Arc Rating of 40 cal/cm². CAT4 outerwear is not equivalent to 40 cal switching gear/flash suit and does not offer equivalent protection to workers in engaged in switching and/or similar activities.

NFPA® 2112 COMPLIANT

Bulwark® Protective Apparel offers flame-resistant protective garments that are certified by Underwriters Laboratories to meet the requirements of NFPA® 2112 Standard on Flame Resistant Garments for Protection of Industrial Personnel Against Flash Fire, 2018 Edition. NFPA® 2113 Standard on Selection, Care, Use, and Maintenance of Flame Resistant Garments for Protection of Industrial Personnel Against Flash Fire, 2015 Edition, requires that garments cover the upper and lower body and flammable underlayers as completely as possible. Bulwark® garments meet this requirement either as a single garment such as a coverall or when worn with another certified garment such as a shirt or pants to provide both upper and lower body coverage.

This BULWARK® FR collection has been designed according to EU Regulation 2016/425 and specifically to the European Standards ISO 13688:2013 (General Requirements for protective clothing), EN ISO 11612:2015 (Protective Clothing for Industrial workers exposed to heat and flame), EN 1149-5:2008 (Protective clothing – Electrostatic properties) and IEC 61482-2:2009 (Protective Clothing against the thermal hazards of an electric arc) to the referenced performance levels. ECType examination by a Notified Body has proven that the clothing meets the fundamental requirements as described in the European Directive EU Regulation 2016/425. The CE mark is the visible sign of our compliant PPE.

ICON LEGEND | WASH CODES

BODY ARMOR

Designed to accommodate ballistic armor worn under shirt

BREATHABLE

Allows air to pass through the fabric easily

COOL-FLEX® WAISTBAND

Unique 360° comfort waistband, woven with open mesh to promote stretch and breathability

FEMALE VERSION

Garment designed especially for the female body

FUNCTION FIT™

- Shorter rise for updated look
- Contoured waistband to complement female curve
- More room in seat and hip for easy movement and comfort
- Unique 360° Comfort Cool-Flex® waistband

MOISTURE TRANSPORT TECHNOLOGY

Dual fabric used to wick moisture away from the body and pass it through fabric

PERMANENT SOIL RELEASE

Properties, treatment or fabric with the capacity to release substances without staining

STRETCH

Advanced stretch for superior mobility

VENTILATION

Open or meshed passage allowing air to flow freely

WATER RESISTANT/REPELLENT

Properties, treatment or fabric with the capacity to resist, wick or repel water

WRINKLE RECOVERY

Properties, treatment or fabric with a smooth fabric appearance after wash and wear

VISA SYSTEM 3 by Milliken

Brand of soil release

ALL GARMENTS MEET THE SPECIFICATION DEMANDS OF UNIFORM PERSONNEL. THE ICONS ABOVE DESIGNATE AREAS OF SUPERIOR PERFORMANCE.

IL-HS (HEAVY SOIL)

This method of industrial laundering is commonly used to remove heavy soil with a combination of higher water temperature (160°F max) and harsher chemistry; pH should be held to 11.5 max. More aggressive wash formulas may be necessary to remove heavy soils but may result in accelerated color loss, deterioration in performance of retroreflective trim and overall reduced garment service life.

IL-OB (OILBLOK)

This new method of industrial laundering is specifically used for garments with Red Kap's exclusive OilBlok Technology finish. Water temperatures of 140°F or less with a max temp of 150°F and cleaning agency with moderate pH (9.0 max) are used to remove heavy soil without negatively affecting the finish. As with Heavy Soil Industrial Laundering, accelerated fading, increased shrinkage and reduced service life may occur.

IL-LS (LIGHT SOIL)

This less aggressive industrial laundering process is commonly used on uniforms which are lightly soiled or made of fabrics that are not designed to withstand higher wash temperatures or harsher chemistry. In a typical light soil formula, water temperatures are usually held to a maximum of 140°F and pH to 10.5 max.

BULWARK

PRODUCT SPECIFICATIONS

All trademark and logos shown in this catalog are for the product illustration only and are not available to a customer, nor are they an endorsement by or for any person or other entity. At time of order, please provide VF Imagewear®, Inc. (VFIW) with the appropriate proof of authorization for your use of trademarks, copyrights, patents and other intellectual property.

Bulwark® garments are not intended for fire entry, structural or wildlands fire fighting activities and provide no personal protection from chemical exposures. They should be removed at once if fouled with flammable material. To prevent generation of potentially hazardous static electricity, do not don or remove any garments in a hazardous area.

Bulwark® garments are not intended for personal, family or household use as defined in the Manguson-Moss Warranty Act, 15 U.S.C. 2301-2312. For latest information, visit our website at www.bulwark.com.

ARC RATINGS

Arc ratings published in this catalog are supplied to us by our fabric suppliers or are the result of our own arc testing. An arc rating can be reported in cal/cm2 as either ATPV or EBT and is the incident energy at which there is 50% probability of occurrence of a second degree burn or of fabric breakopen, respectively. As with all tests, some level of variation in test results is normal and expected among fabrics of identical fiber content and nominal weight. In order to assist end users with their hazard analysis by providing the most conservative arc rating, Bulwark® will publish the lowest arc rating for that fabric weight in our catalog and on our garment label.

Bulwark® garments are designed for continuous wear. They meet applicable performance standard requirements, such as ASTM F2302, Standard Performance Specification for Labeling Protective Clothing as Heat and Flame Resistant National Fire Protection Association (NFPA®) Standard 70E,

Standard for Electrical Safety in the Workplace, ASTM Standard F1506, Flame-Resistant Materials for Wearing Apparel for Use by Electrical Workers Exposed to Momentary Electric Arc and Related Thermal Hazards. Refer to individual garment labels to confirm compliance with specific performance standards. Because these fabrics are flame-resistant, they are acceptable under the Occupational Safety & Health Administration (OSHA) Final Rule 1910.269. Final Rule on Electrical Protective Equipment.

Bulwark® (a brand of VF Imagewear®, Inc.), CoolTouch® 2, EXCEL FR®, ComforTouch® and iQ Series® are registered trademarks of Imagewear Apparel Corporation.
